

EU REACH Scope Statement – Non-EU/EEA Manufacturer

Caton Connector Corporation

26 Wapping Road, Kingston, Massachusetts 02364 USA

Effective Date: September 10, 2026

Caton Connector Corporation is established in the United States and is not a legal entity established within the European Union or European Economic Area ("EU/EEA").

Applicable REACH obligations associated with products imported into the EU/EEA generally reside with the applicable EU/EEA importer or, where one has been appointed, the applicable Only Representative.

Caton manufactures high-voltage connectors, cable assemblies, and related interconnect products using components and materials obtained from third-party manufacturers and suppliers. Caton does not manufacture or formulate the underlying metal alloys, plating chemistries, wire compounds, polymer compounds, or other chemical formulations contained within these purchased components and materials.

Information concerning the chemical composition or regulatory status of purchased components and materials is based on information made available to Caton by the applicable manufacturer or supplier. Caton does not independently perform comprehensive analytical testing or chemical-content verification of purchased components or materials.

Any REACH, SVHC, or substance-related information provided by Caton is limited to information reasonably available to Caton from its manufacturers and suppliers. Unless specifically confirmed by Caton in writing for an identified product or part number, this statement should not be interpreted as a certification that a product is free of Candidate List substances, contains no SVHC above a specified concentration, or satisfies every requirement that may apply under REACH.

This statement reflects Caton's current understanding and information available as of the effective date.
